

## REQUIREMENTS FOR *NEW TESTAMENT SYNTAX WORKBOOK* (by Wallace and Edwards)

This is the blue Zondervan syntax workbook that you all should have purchased during your first semester Greek reading course:

Wallace, Daniel B. and Grant G. Edwards. *A Workbook for New Testament Syntax*. Grand Rapids: Zondervan, 2007. [W-E]

### **I. Required for Course: Due Monday, Feb 15, 2010**

Chapters 2, 3, 5, & 6

For each of these four chapters, do all the following:

- A. Read / review the section of Wallace's *Exegetical Syntax* that corresponds to the syntax heading of the workbook chapter. (For ex., for ch. 2, you should read over Wallace's section on the genitive.)
- B. Complete all questions in Warm-up Passages. Memorize the vocabulary.
- C. Choose *only one* of the Syntax Passages and complete the questions. Memorize the vocabulary for the one passage you chose.
- D. Check your answers against the answer key that I will provide for you.

Worth 10% of final grade. You can get started on this PRIOR to the beginning of the course as a way of reviewing your Greek.

### **II. Extra Credit: Due Friday, April 30, 2010**

Chapters 7, 10-17, 19-20

Pick any (or all!) of the chapters and complete them in the same way as outlined in section I above. For each chapter you complete, you will receive 1/3 of a bonus point toward your final numerical grade. For example, if your grade average is 88, and you've completed 6 of these chapters for extra credit, then your final grade would be 90--an A!

Note: we will complete chapters 1, 4, 8-9, and 18 during the course in the process of working over the Philippians Greek NT (portions of Philippians 1-3 are in these chapters of the workbook).
