

Written Memory Assignment #13

A. Practice learning the Hollow (II-Waw/II-Yod) verbs by reproducing 3x the forms specified in the verbal stems/binyanim (note: these are not the full paradigms, but simply representative forms). Each column should look exactly like the model on this handout. Fill in each column from top to bottom. (The English glosses in the first columns are for reference; write the Hebrew forms in the boxes above the English.)
