

Written Memory Assignment #2

A. Reproduce the Hebrew cardinal numbers (1–10, 20–90) at least 6 times. Each column should look exactly like the model on this handout. You're not required to write the meanings, but please recite the meaning out loud with each form you copy (to drill it into your mind!). Fill in each column from top to bottom (so that you practice counting the Hebrew numbers in order from 1).
